D-78056 VS-Schwenningen  
Germany

## REACH and SVHC Compliance Information

**Supplier Name:** JAUCH Quartz GmbH  
**Address:** In der Lache 24,  
D-78056 Villingen Schwenningen

**Based on information obtained from our component suppliers, this document certifies that**

- **MMTF32 product family**

**do not contain any of the 224 Substances of Very High Concern (SVHC) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) per the ECHA 10/06/2022 and previous updates.**

MMTF32 consists partly of glass (glass frit). For the production of glass B2O3 may be used, which is on the candidate list. B2O3 is not present as such in the final glass; it is fully integrated into the glass matrix through the melting process. The information duties of Article 33 therefore do not apply.

However, under the REACH Regulation, glass is treated as a UVCB. Hence, even if a SVHC is used as a raw material in the process of glass production, the glass manufacturers have no obligation to communicate information on the respective raw material (SVHC) or to notify ECHA. Individual full material declaration sheets are available on request.

**This certificate is provided to the best of our knowledge and belief, and based on our current level of knowledge. The signature below verifies that the statements above are valid and accurate.**
